Sagnik Saha

Developer

👤 Profile

I have recently completed my BCA from Adamas University and am planning to pursue MCA to continue learning in the field of computer applications. I have a growing interest in web development, especially in user experience and design. I have worked on basic projects using PHP, MySQL, Python, and Flask. I enjoy learning new skills, can manage multiple tasks, and am looking for an opportunity to gain practical experience and become a valuable part of your team.

🎓 Education
